2023 New Districting Reference Guide

WINNETT COUNTY COMMISSION DISTRICTS

Elected Officials Reference Guide

COURTESY OF GATEWAY85 CID

Gateway85 Community Improvement District is one of Georgia's largest CIDs representing more than 550 owners and accounting for more than \$1.7 billion in commercial property value with an economic impact of \$16.6 billion annually. The district has 3,090 businesses that employ more than 47,400 workers, making our 14-square mile area along I-85 one of Gwinnett County's – and metro Atlanta's – most important employment centers.

Every 10 years, the state legislature redraws districts based on figures from the Census to ensure that each elected official is serving approximately the same number of people and rebalance the districts based on population shifts.

The redistricting represents significant changes in Gwinnett County, which is poised for continued growth. Gateway85 improves our district through infrastructure, beautification and security updates. We also believe there is power in knowledge, and that means knowing your elected officials.

This guide gives you easy-to-access contact information for the representatives of Gateway85 and the immediate surrounding areas. Many local politicians and representatives are business owners, too. Where applicable, we have included their business, personal and official office contact information.
